Your brilliance, connected

You have requested a correction to your Scopus profile and have contacted our support team. Here, we explain what you can expect in terms of timelines and next actions.

First of all, we're sorry you've had to take time out of your busy day to contact us about potential gaps in your profile. We understand how important a comprehensive, accurate record is and how much extra effort we have put you through, so we want to make the process as easy as we can.

* Sometimes, because of our curation policies, we can't make the change. Common reasons include: (a) the title is not currently indexed in Scopus; (b) the publication was too long ago for us to make a change.

NOTE: If the request is for a lot of information to be corrected or added, for example 10 or more articles or an entire book, a large number of book chapters, conference papers or complete conferences, then the request may take longer to complete, and we will keep you updated on progress.

iD

Distinguish yourself in three easy steps

ORCID provides a persistent digital identifier (an ORCID iD) that you own and control, and that distinguishes you from every other researcher. You can connect your iD with your professional information — affiliations, grants, publications, peer review, and more. You can use your iD to share your information with other systems, ensuring you get recognition for all your contributions, saving you time and hassle, and reducing the risk of errors.

Your ORCID iD connects with your ORCID record that can contain links to your research activities, affiliations, awards, other versions of your name, and more. You control this content and who can see it.

By default, what visibility should be given to new items added to your ORCID Record?

STEP 7 : CHECK AND VERIFY EMAIL ADDRESS

Thank you for creating your ORCID identifier. Please verify your email address to complete your registration and gain access to manually edit your record: click the following link and sign into your ORCID record. If you can't click the link, copy and paste it into your browser's address bar.

Verify your email address

Your 16-digit ORCID identifier is 0000-0002-2432-6465, and your full ORCID iD and the link to your public record is <https://orcid.org/0000-0002-2432-6465>

Next steps:

1. Add more information to your ORCID Record

Access your ORCID record at <https://orcid.org/my-orcid> and add more information to your record. If you haven't already done so, we strongly recommend that you add more than one email address to your account, since our system checks names and email addresses to prevent the creation of duplicate records.

Funders, publishers, universities, and others use the information contained in your ORCID record to help reduce the record-keeping they ask from you. Increase the information you can share by adding other names you are known by, professional information such as your affiliation, biography, and keywords, funding you have received, and works you have created or contributed to your record.

See our tips for six things to do now that you have an ORCID iD. For tips on adding information to your ORCID record see: <https://support.orcid.org/hc/articles/360006896894>

2. Use your ORCID iD when publishing, applying for grants, and more

Many systems ask for your ORCID iD in order to create a link between you and your research outputs and affiliations. Using your ORCID iD, and granting organizations permission to update your record whenever they request this will help you get credit for your work and reduce time spent on future record-keeping.

Check your email and
verify your email address
