RESEARCHERID

WEB OF SCIENCE RESEARCHERID

By Ms. ASMAHANI ABDULLAH

Objektif bengkel

- Memberi pendedahan tentang platform profil penyelidik – Web of Science.
- Membantu para penyelidik mengemaskini profil WOS masing-masing dan menyelesaikan masalah berkaitan (variasi nama, variasi akaun, dll).
- Mengumpul maklumat terkini Profil Penyelidik UiTM.

Researcher Profile

A researcher profile is a professional profile of researcher which **showcase the activities related to the research** such as publication productivity, conferences, collaborative projects, teaching commitments, fieldwork, and data collection.

A researcher profile will connect you and your research and make your scholarship **highly discoverable through many** different platforms and systems, as well as help users reach author-specific information more quickly and effectively.

Researcher Profile

Manage and maximise your **digital presence and profiles** using author ID systems, online networks and tracking engagement.

What is my Web of Science ResearcherID?

- A *Web of Science* ResearcherID is a unique identifier that connects you to your publications across the *Web of Science* ecosystem (e.g., *Web of Science*, and *InCites*) and provides the global research community with an invaluable index to author information.
- If you have previously utilised Publons with your ResearcherID, Publons has now been integrated with your *Web of Science Researcher Profile* and you will be redirected to WoS for access.

The screenshot displays a Web of Science Researcher Profile for Asmahani Abdullah, affiliated with Universiti Teknologi MARA. The profile includes a circular avatar with the initials 'AA', the name 'Asmahani Abdullah' with a verified status, and the institution 'Universiti Teknologi MARA'. A red box highlights the 'Web of Science ResearcherID: ABG-3027-2021'. Below this, there are links for 'Other Identifiers' and an ORCID iD: 'https://orcid.org/0000-0002-4249-5780'. The profile is set to 'Edit'.

On the right side, there are two main sections:

- Applying for a job or funding?** with a sub-link 'Export your profile as a CV in one click.'
- Verify your Author Record** with instructions: 'Get your own verified author record. Enter your name in Author Search, then click "Claim My Record" on your author record page.' and a 'Go to author search' button.

The main content area shows the 'Publications' tab selected, with a 'Peer Review' tab also visible. It indicates '0 Publications from the Web of Science Core Collection'. A checkbox option is present: 'Include publications not indexed in Core Collection (1)'. Below this, a message states: 'There are 0 publications in Web of Science Core Collection. Please use checkbox to view all non-indexed publications.' The page includes navigation controls for 'All Publications', 'Date: Newest first', and pagination showing '1 of ...'. A 'Page size 50' dropdown is also visible.

At the bottom right, there is a 'Metrics' section with a 'Dashboard' button. It displays 'Web of Science Core Collection metrics' with the following values:

0 H-Index	0 Publications in Web of Science
0 Sum of Times Cited	0 Citing Articles

Below this, 'Peer Review Metrics' are also listed.

Your Publons profile is moving to Web of Science since April 2022.

New features

- You'll be able to manage your profile and edit your details easily from just **one platform** rather than two.
- You'll receive an **automatic alert** when someone cites a publication from your profile indexed in the Web of Science Core Collection.
- Your profile will be visible in a database used by 15 million people in over 9,000 institutions around the world.

FAQs

- Will researchers' profiles continue to be public following the move to WoS?

Your profile will remain freely available for anyone to see, so people without a subscription to WoS will still be able to look you up. However, they won't see entries from authors or documents you haven't claimed.

- If I don't have publications on WoS, can I have a Web of Science ResearcherID?

Yes, you can have this unique identifier.

- Will I still be able to add publications that aren't in WoS to my profile? *Yes.*

- Will I still be able to sync my WoS profile with my ORCID iD? *Yes.*

What is author disambiguation?

Name ambiguity is a frequently encountered problem in the scholarly community:

- Different researchers publish under the same name.
- Individual researchers publish under many names.
- Languages and cultural naming conventions introduce additional challenges.

Author disambiguation is a process that aims to find all publications that belong to a given author and distinguish them from publications of other authors who share the same name.

FACT: A mere hundred surnames still make up over 85% of China's 1.3 billion citizens. The top three—Wang, Li, and Zhang—cover more than 20% of the population.

Also published as:

- Avram Noam Chomsky
- N. Chomsky
- نعوم تشومسكي
- נועם חומסקי

It all begins with a simple, fast and intuitive Author Search Beta

A new Author Search quickly and efficiently guides users through the process of easily locating the author you are looking for. **Regardless of how common their name is.**

Saving users time, while improving the ease and accuracy of finding authors' full publication records in *Web of Science Core Collection*...

Researchers Search

Search for an author to see their author record. An author record is a set of Web of Science Core Collection documents likely authored by the same person.

You can claim and verify your author record from your author record page.

Name Search

Finds an author record by searching for the author's first and last names.

Author Identifiers

Find an author record using the author's Web of Science ResearcherID or ORCID ID.

Examples:

A-1009-2008

0000-0003-3768-1316

NOTE: Some Web of Science ResearcherIDs and ORCID IDs may not be associated with an author record. Try using the name search instead.

NEW Author Record (BETA)

The screenshot displays the new Author Record interface for Hamidah Jantan. The interface is clean and organized, featuring a profile section on the left, a verification section on the top right, and a metrics section on the bottom right. The profile section includes a circular avatar with the initials 'HJ', the author's name 'Jantan, Hamidah' with a verified status, and her affiliation 'Universiti Teknologi MARA'. Below this, her Web of Science ResearcherID is listed as 'AAY-8422-2021'. The 'Published name' is 'Jantan, Hamidah'. The 'Organizations' section lists three affiliations: 'Univ Teknol MARA UiTM' (2019-2019), 'Univ Teknol MARA UiTM Terengganu' (2009-2019), and 'Univ Teknol MARA Terengganu' (2015-2016), with a 'Show more' link. The 'Other Identifiers' section shows her ORCID iD: 'https://orcid.org/0000-0002-8422-3388'. The 'Verify your Author Record' section prompts the user to get their own verified author record by entering their name in Author Search and clicking 'Claim My Record'. A 'Go to author search' button is provided. The 'Metrics' section includes a 'Dashboard' button and a table of Web of Science Core Collection metrics: H-Index (3), Publications in Web of Science (17), Sum of Times Cited (23), and Citing Articles (20). Below this, the 'Peer Review Metrics' section shows 0 Verified Peers and 0 Verified Editors. At the bottom, it states '17 Publications from the Web of Science Core Collection' with a 'View citation report' button.

The authors indexed in *Web of Science Core Collection* haven't changed, but how you find, interact with, and manage their publication record has...

What is an Author Record?

A clean and comprehensive picture of an author's *Web of Science Core Collection* publication and citation record.

While anyone signed into Web of Science can suggest feedback on an author's record...

...only one person (the Author) can CLAIM ownership of their record.

CLAIM THIS RECORD creates a *Web of Science ResearcherID* for the author's publications, that will display in  *Web of Science*  – creating a unique identifier (*Web of Science ResearcherID*) for that author.

Researcher Profiles now display publications not indexed in the Core Collection

Web of Science Researcher Profiles can now display publications researchers have added to their profile that are not indexed in the Core Collection. By default, the Publications tab only displays those publications indexed in the Core Collection, but users can now click a checkbox to include other publications chronologically as part of the same list. The number in brackets shows how many publications can be included.

407 Publications from the Web of Science Core Collection [View citation report](#)

Include publications not indexed in Core Collection (8) ⓘ

Date: Newest first ▾ < 1 of 9 >

Publications not indexed in the Core Collection are identified in the list with a 'Not indexed' badge, and their citations are not tracked. The metrics on a researcher's profile (e.g., sum of times cited, h-index) are only calculated on their publications in the Core Collection.

Small-molecular fluorescent probes for the detection of hydrogen polysulfides and nitroxyl

Different views of the Web of Science Researcher Profile

Web of Science Researcher Profiles provide an overview of a researcher's scholarly works, including publications in the Core Collection, publications outside of the Core Collection, peer reviews, grant reviews, and editorial work and board memberships.

The features and content visible to you in the profile depend on your level of entitlement to the Web of Science Core Collection.

Unregistered access

If you do not have entitlements to the Web of Science then you can view a free version of a researcher's profile.

This includes:

- Researcher information (profile picture, name, institution, awards).
- [Web of Science Researcher ID](#).
- [Peer reviews](#), grant reviews, editorial board memberships.
- [Publication metrics](#) (h-index, citing articles count, sum of times cited, peer review count.)
- Publication and peer review charts.

Registered access (without subscription to Web of Science Core Collection)

Registering for a Web of Science account provides additional profile features:

- [Create your own](#) Web of Science Researcher Profile.
- Use Researcher Search to discover other profiles.
- View other researcher's full publication lists.

The screenshot displays a researcher profile for Asmahani Abdullah at Universiti Teknologi MARA. The profile includes a placeholder image (AA), the researcher's name, institution, and Web of Science Researcher ID (ABG-3027-2021). It also shows an ORCID iD link. The profile is divided into sections for 'Publications' and 'Peer Review'. The 'Publications' section shows 0 publications from the Web of Science Core Collection, with a message indicating that there are no publications in the Core Collection and suggesting to use a checkbox to view non-indexed publications. The 'Peer Review' section shows 0 peer review metrics. On the right side, there are buttons for 'Applying for a job or funding?', 'Verify your Author Record', and 'Metrics Dashboard'. The 'Metrics Dashboard' shows 0 H-index, 0 Publications in Web of Science, 0 Sum of Times Cited, and 0 Citing Articles.

Web of Science Core Collection subscriber

Users with entitlements to the Core Collection will see a full version of the researcher profiles. The features available in addition to those above are:

- Use Researcher Search to search across all profiles plus Author Records, covering all of the Core Collection back to 1900.
 - Co-author network.
 - Author position analysis.
 - Citation Report.
 - Profile export (for your own profile).
 - Web of Science Author Impact Beamplots.
 - Geographic citation map.
-

A mutually manual curation process.. ”

Feedback isn't just going into a computer...

All submitted feedback is being reviewed by a real human! Because if you are taking the time to suggest improvements, we want to make sure they are validated and implemented correctly.

... the algorithm learns from your feedback.

Our advanced clustering algorithm uses artificial intelligence to learn from user feedback and will continuously improve the accuracy of author disambiguation.

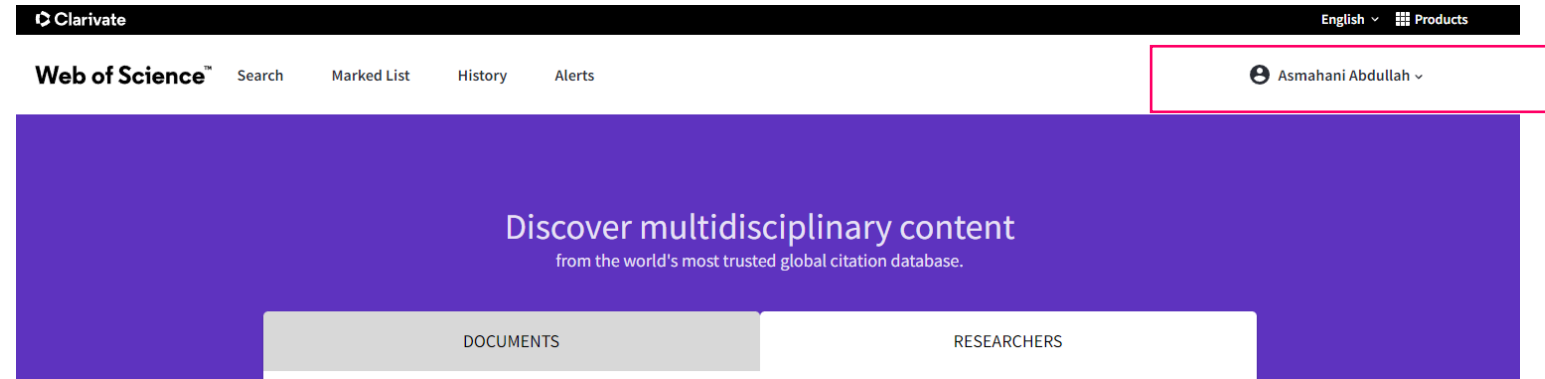

**Author data,
made better together**

The image shows a screenshot of a web form titled "Submit Your Suggestions" and a subsequent confirmation message. The form is set against a purple background. The form fields include: "Name" (filled with "Hao, Ching"), "How are you connected to this author?" (a dropdown menu with "Select an option"), "Organization" (empty), "Email address" (filled with "hao.ching@thomsonreuters.com"), and "Additional information" (a large empty text area). Below the form is a white confirmation box with a purple border. The box contains the text "Thank You For Submitting Suggestions To This Author Record!" and "We will review your submission, and you will receive an email within the next 48 hours." with a "Close" button.

WOS account

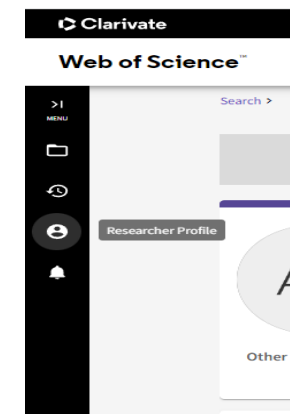

- Setting up a WOS Account

To set up an account, **click on Sign In** on the right of the very top bar on any page. Then click on Register and follow the instructions. Once you have an account, **Sign In** whenever you are in the Web of Science. To save a search you like, click on **Search History** then click on **Save History**.

WoS Account is not WoS Author Profile.

If you do not have publication in WOS Core Collection, you could create the author profile in WoS after registering WOS Account.

Researcher's scenarios.

“Merge author records from the Author Search Results page.”

Select more than one unclaimed author record from the results list and the ‘**Merge records**’ button will be activated.

Once you have signed in, you will be directed to the simple correction wizard to complete the process.

The screenshot shows the Web of Science interface for author search results. At the top, there are navigation links: Search, Marked List, History, and Alerts. Below this, it indicates '3 Author Records from the Web of Science Core Collection for:'. A search bar contains 'peters,t (Author Name)' and a 'SEARCH' button. Below the search bar, there are filters for 'Refined By: Author name: Peters, T. x Organizations: Ulm University x' and a 'Clear all' button.

The 'Refine results' section on the left includes filters for Author name, Organizations, and Subject Categories. The main results area shows three records for 'Peters, T.' from 'Ulm University, ULM, GERMANY'. The first record is selected (checkbox checked) and has a 'MERGE RECORDS' button highlighted with a red box. The second and third records are also selected. Each record shows the number of documents (63, 44, and 2 respectively) and the publication years (2006-2021, 2005-2019, and 2006-2011). A 'Page size 50' dropdown is visible at the bottom left, and pagination controls are at the bottom right.
